Hi Eric,

Sent the link for the One Drive folder, let me know if you have any trouble. This site is a very small portion of a residential driveway. It was what some were calling an “anomaly” in the aerial rad survey that was conducted sometime in the 1980’s I think. Our inspection generally showed a lower magnitude compared to NFB or HTC. Let me know if you have any other questions.

**Subject:** 738 Upper Mountain Road  
**Importance:** High

Good Morning Andrew:

How are you? I was hoping to get access to your OneDrive Files for 738 Upper Mountain Road. I am conducting the removal action for Niagara Falls Boulevard currently and there has been a revival of interest in that other site. Since I have never been involved in the assessment work and it never came to us for removal assessment, I wanted to become more familiar with the information in order to respond intelligently.

Hope all is well.

Thanks

Regards,

Eric
